This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1889 Excerpt: ...be, b closes the lips before the sound of e is uttered. 7. A consonant consequent to its vowel closes its appropriate organs after the vowel sound is uttered: as in the syllable em, m closes the lips after the short sound of e is uttered. 8. Words always have as many syllables as they contain vowels or diphthongs that are sounded. 9. The letters in a word must be arranged into syllables exactly as they are heard in correct pronunciation; as pa-per, or-thog-ra-phy. What is essential to every syllable? By what is the principal sound in every syllable produced? To what does every consonant belong? When is a consonant antecedent to a vowel 1 When consequent to it 1 What of a consonant antecedent to its vowel 1 What of a consonant consequent to its vowel? How many syllables do words have 1 How must the letters of a word be arranged into syllables 1 In a few unaccented syllables, such as the last syllable in cable and in centre, the vowel is less distinct than the consonant sounds, but these are only exceptions to the principle.- 10. Derivative words are generally divided between the primitive parts and terminations; as hope-less. 11. Compound words should be divided into the simple words which compose them; as fire-place. 12. At the end of a line a word may be separated by its syllables, but a syllable should never be broken. The student may exercise his taste in dividing the following words into syllables. Examples.--Fanner, bookcase, opportunity, delicate, injury, spelling, company, cornice, pedigree, aerial, laborious, zoology, notwithstanding, extemporaneous, unseaworthy, preantepeniditimate. In the word farmer, what vowel does/belong to? Is it antecedent

or consequent to its vowel a 1 To what vowel does r belong? Antecedent or consequent? To w...
