

Five Nights To The Crimson Moon

In a high-tech winterland, 13-year-old Corbin accidentally causes his widowed mother, Zara the Guardian, to be sucked into the Dreamstone, a 12-inch crystal that has power over peoples nightmares. Terror strikes when Gol is invaded by SnowLanders led by the traitor Riphos who seizes the Dreamstone, kidnaps Gols children as ransom against an uprising, and vanishes into the Snow Mountains. Corbins only shot at rescuing his mother and redeeming himself is locating the Dreamstones creators. But how will he find long-gone legends? Forced into the wilderness, the scared city kid stumbles across the very capable 13-year-old Bridie, who burns with revenge for the loss of her own family. Together, they may have what it takes to right Riphos wrongs, but time is running out. In five nights, the crimson full moon will rise, threatening the existence of the Dreamstone. As the seconds tick away, the unthinkable seems inevitable. Will Corbin and Bridie be strong enough to save themselves, his mother, their world?
