

Information Technology/Information Management: Strategic Plan Fiscal Years 2008-2013

The U.S. Nuclear Regulatory Commission's Information Technology/Information Management (IT/IM) Strategic Plan for Fiscal Years 2008-2013 describes how IT/IM activities at the NRC contribute to the agency's mission. Section 1 covers the NRC's mission and responsibilities, Federal requirements for IT/IM planning, benefits of IT/IM strategic planning, and the relationship of this plan to other planning documents. Section 2 provides the environment and context for the plan. Sections 3 and 4 discuss the planning outcomes: the IT/IM program objective, vision, and strategic goals, and the strategies and measures associated with each of the goals. Section 5 describes the relationship of the IT/IM strategic planning process to other agency planning processes and to the Federal Electronic Government Program.
