

## Cheer Power: The Cheer Series #1

Catelyn Cross has everything going for her; an amazing best friend, cute boyfriend and a passion for cheer leading. Yet her world is turned upside down when her dad takes a promotion that moves the family across the country. Even worse, she misses varsity cheer try-outs at her new school, leaving her squad-less and devastated. But not as devastated as her cheer mom who is pushing Catelyn to join a private cheer squad of girls who didn't make the cut. Catelyn is missing her old friends, longing for her boyfriend, and trying to find her classes in a school the size of her new home of Texas. Will Catelyn cave from the pressure or will she find her CHEER POWER and help her less-than-polished squad rise to the top at Regionals?
